# WILD ASS™

MOTORCYCLE AIR CUSHION

The **WILD ASS** motorcycle air cushion was designed using clinically proven medical seating technology.

The cushion eliminates painful pressure points and promotes proper circulation utilizing adjustable interconnected air cells which conform to the rider's shape regardless of weight or seating position.

Additional benefits are reduction of shock and vibration to reduce lower back pain and air circulation under the rider to disperse heat and perspiration.

Recommended for rider who would like reduction of painful pressure points, increased blood circulation, reduced vibration, shock absorption, heat and moisture reduction in the seating area.

## Medical pressure mapping proves the difference.

- ✓ **CLINICALLY PROVEN MEDICAL TECHNOLOGY**
- ✓ **ELIMINATES PAINFUL PRESSURE POINTS & NUMBNESS**
- ✓ **PROMOTES BLOOD CIRCULATION**
- ✓ **LOWERS SHOCK AND VIBRATION**

## SMART

Smart is a universal fit for most Large Cruisers, Standards, Sports Touring, Adventure Touring and Harley's. Special features include a wide front to back cut out to provide maximum comfort. Tapered front and back air cells provide optimal fit for elevated front and back seat contours and also improve leg passage.

## **PILLION**

Pillion is a universal fit for passengers on almost all motorcycles. It may also be used by the rider on very short or narrow saddles. Special features allow the passenger or rider to use the Pillion length ways or sideways.

## **SPORT**

Sport was designed with a 6 inch / 15cm front to match the narrow seat profile of most Dual Sport, Adventure Touring, Sport Touring and Non-Touring Harley's. Special features include a narrow front with tapered cells for maximum comfort and provide easy leg passage. Back cut out area reduces contact with tail bone.

# LITE

## (POLYURETHANE)

Made of economical light weight polyurethane. Reduces painful pressure points, promotes blood circulation, reduces heat and moisture build-up and lowers shock and vibration better than any other low cost comfort product on the market. Great for the budget conscious occasional rider.

RRP \$169.95

# AIR GEL

## (POLYURETHANE + GEL)

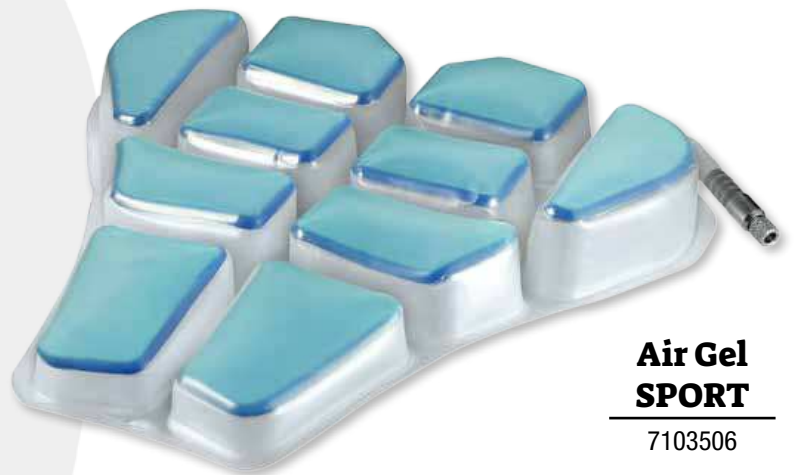

Made with three layers of polyurethane makes Wild Ass Air Gel more durable than Wild Ass Lite. In addition, gel pads inserted inside each individual air cell provides additional cushioning, shock absorption and vibration dampening. Air Gel can also be used without air when the rider wishes to feel 100% "close to the bike" yet needs some additional cushioning. A great mid-priced cushion for riders who have multiple comfort needs for short and long rides.

# CLASSIC

## (NEOPRENE RUBBER)

Made with medical grade neoprene rubber the Wild Ass Classic series are the ultimate in comfort, elasticity and natural "butt feel" in a motorcycle seat cushion. Neoprene provides superior reduction of painful pressure points, promotion of blood flow and reduction of shock and vibration. Classic cushions are premium priced for frequent long distance riders who only want the best level of comfort money can buy.
